GRIM REAPER.

Death of an Old and Prominent Citizen Sunday.

Mrs. Frank M. Quarles Also Passes Away the Same Night—Other Deaths.

Mr. William Wallace Ware, one of the oldest and most prominent citizens of Hopkinsville, died Sunday night at the home of his son-in-law, Mr. M. F. Crenshaw, at 1018 South Main street.

For many years Mr. Ware had been a sufferer from a stomach trouble and some weeks ago this became much worse and the inflammation became so great that his condition became hopeless. He grew worse until he died as above reported, Sunday night.

He was born in December 1820 and was in the 79th year of his age. Mr. Ware engaged in farming for a long term of years, but had lived in the city for 25 years. He continued, however, to look after a small farm near the city. He was a man of great industry and activity and in spite of his chronic trouble appeared to be in good health and a remarkably well-preserved man for one of his age.

His wife died a number of years ago. Two daughters, Miss Julia Ware and Mrs. R. B. Withers, also died a number of years ago. His surviving children are Councilman James Dudley Ware and Mrs. Lelia Crenshaw, wife of Mr. M. F. Crenshaw. Dr. Robt. W. Ware, of this city, is his brother, and many other relatives live in and about Hopkinsville.

Mr. Ware was a member of the Baptist church and was the Baptist member of the Union Tabernacle Directory was very active in building the Tabernacle. He taught a Bible class in the Sunday-school and was prominent in all church work.

The funeral services will be held at the Baptist church at 2 o'clock p. m., to-day. His pastor, Rev. C. H. Nash, will conduct the services. Interment at Hopewell Cemetery.

MRS. F. M. QUARLES.

Death of a Well Known and Highly Esteemed Lady.

Mrs. Josephine Rabold Quarles, wife of Mr. Frank M. Quarles, died at the family residence at 1138 South Main street, Sunday night, after a lingering illness, of consumption.

Mrs. Quarles was a member of the Catholic church and her funeral services will be held from that church on East Ninth street at 10 o'clock this morning. The interment will take place at Hopewell Cemetery.

Mrs. Quarles moved with her husband to this city from Howell a year or two ago. She was then in failing health, but not until a few months ago did her disease become such as to destroy all hope of her recovery. She leaves two small children.

THIS IN ILLINOIS.

Six Negroes Shot To Death At Cartersville.

Cartersville, Ill., Sept. 18.—The battle which had been expected in the Illinois mining town of Cartersville ever since last Monday, when Gov. Tanner withdrew the State troops which had been sent there to protect negro nonunion miners, occurred yesterday. Six negroes were shot to death, and a seventh was so badly wounded that he will probably die. Troops have again been ordered to the scene.

Salubria Springs.

Mr. D. L. Lander, owner of the Salubria Springs property, has expressed a willingness to sell his property to a stock company for the purpose of improving the same and advertising it to the world.

THE CITY TICKET.

Closely Contested Primaries in Three Wards.

All of the Old Councilmen Who Were Candidates are Re-nominated.

The Democratic primary elections in six wards of the city Friday were participated in by 342 Democrats, most of whom voted in the three wards where there were contests.

In the Second, Sixth and Third wards there were no contests, there being but one candidate in each ward.

Mr. J. T. Wall received 36 complimentary votes in the Sixth ward. Mr. J. D. Ware received 22 votes and was re-nominated in the Second ward.

Mr. James West, who had no opposition in the Third, received 42 votes. His election is generally conceded, as the Third was lost two years ago by the colonization of colored floaters, which will not be possible this time.

In the First ward the present Councilman, H. W. Tibbs and M. W. Davis were the candidates. Mr. Tibbs was elected as an independent two years ago, but this year submitted his claims to the Democratic party. He won by a vote of 44 to 18.

The contest in the Fourth ward was between Councilman Geo. D. Dalton and F. L. Waller. This proved to be the closest race of all, the vote standing 41 for Dalton and 39 for Waller. There are only 144 votes in the ward and 80 of these participated in the primary, only 10 Democrats staying out. This indicates an easy victory for Dalton in the general election.

Over the river in the Seventh ward there was another close race, doubtful until the polls closed. Joe N. Fowright received 52 votes and J. H. Eggleston 48. In this election 100 of the 107 Democratic votes were accounted for. The Democratic majority in the ward is 36 votes.

The Democrats will make no nomination in the Fifth ward, represented by E. W. Glass, the colored Republican member.

There will be a fusion ticket put out in opposition to the Democratic ticket. Republicans will be named in the First, Seventh and Fifth wards: Gold Democrats in the Second, Third and Sixth wards and a dissatisfied Democrat in the Fourth ward.

Sprained Her Ankle.

Mrs. W. H. Everett happened to a very painful accident a few days ago. She stepped upon a rock, which turned and she fell to the ground with great force. One ankle was badly sprained and a finger was knocked out of joint.

SCOTT'S EMULSION

is a food medicine for the baby that is thin and not well nourished and for the mother whose milk does not nourish the baby.

It is equally good for the boy or girl who is thin and pale and not well nourished by their food; also for the anemic or consumptive adult that is losing flesh and strength.

In fact, for all conditions of wasting, it is the food medicine that will nourish and build up the body and give new life and energy when all other means fail.

Should be taken in summer as well as winter.

WANTS \$10,000.

Sues the L. & N. for That Amount—Lost a Foot.

William Gaither, col., who had a foot amputated in this city three weeks ago, has filed suit in the Hopkins Circuit Court against the L. & N. railroad company for \$10,000 damages.

Gaither alleges that he was riding on top of a box car on a freight train, and while between the stations of Earlinton and Nortonville a brakeman came to him and told him that he had to get off. He replied that the train was running too fast, and that he would get off when it stopped at Nortonville, or, if he

would stop the train he would get off where he was. The brakeman would not consent to this, but pulled a pistol and forced him to get off, and that he was so injured that he had to have his left leg amputated the next day between the ankle and knee.

COW PEAS

As a Crop and Fertilizer in the South.

In the south, peas are to the soil what clover is to it in Meade, Breckenridge and adjoining counties. Moreover it is a greater air plant—placing in the soil more oxygen and nitrogen than the common seed clover. The roots growing so much deeper make the soil much lighter, thereby placing more life which means better crops, and shaping crops in a condition to withstand a greater drought.

To get from 1½ to 2 tons of hay per acre, or a fertilizer for corn which is to be followed by wheat, sow one bushel per acre broadcast in front of the plow when laying the corn by, or follow plow with a one-horse wheat drill. Either is very effective.

After cutting the corn use the Disc Wheat Drill in drilling your wheat, thereby leaving the pea roots undisturbed in the ground to decay. The vine will protect your wheat during the winter and the matured peas can be either gathered off the vine or left to decay on the ground. This mode is more productive than the use of phosphates or cotton seed.

As to the varieties sown in the South, there are three: the whip-o-will, the clay and unknown. The clay is white, grows a very long vine and produces few peas. The whip-o-will is a medium vine about four to five feet long with very heavy foliage. It is considered the best for hay. The whips, as it is commonly called, grows about 2½ feet, has better filled pods and longer roots than the other. It is considered the most profitable of the three for hay, seed and fertilizer.

To grow for seed, it should be drilled in rows about two feet apart and the seed planted any time between May 15th and June 1st. It should be cultivated two or three times, or even more if the ground requires it. When gathered you can thresh or beat out according to the quantity. The price ranges from 75c to \$1. At present the price is \$1.35.

Another method is to broadcast or drill about the 1st of May, get about one fourth ripe, turn in your hogs and feed down. Then follow by wheat in fall, or wheat land after cutting your wheat. Disc the ground twice, sow your peas, let them decay on ground, sow in oats and clover in the spring, thereby never failing to get a good seed of clover or grass on very poor soil.

Whilst the commercial phosphates will produce the wheat on the clay subsoil land, did you ever stop to think what it is doing for your land? Look at your farm and you can very readily answer. Before you ever used phosphates, the ground, after a wheat crop, was covered with rag weeds as high as your head. Look at them to-day, bearing nothing but the bare stubble of the wheat straw. The reason for this is that the phosphates draw from instead of adding to the soil, thus making your land poorer and poorer each year.

Then why do you continue to impoverish your land, when you can grow a profitable crop, and at the same time improve it, and in a few years have it in a high state of cultivation?

Allow me to congratulate the farmers of Meade and Breckenridge on the interest taken in their Institute. It has proven very beneficial in every section of the United States, where interest was taken in it. —Breckenridge News.

TRUSTS FLOURISH

By the Grace of President McKinley and His Attorney-General.

During the past week the prices of beef and other meat have been advanced from two to five cents a pound by a combination of Western packers. There is no pretense that beef is scarcer or that it costs more to make it. It is admitted that the price is raised arbitrarily

in order to make good to the trust its temporary losses incurred in establishing a trust monopoly in England.

Meanwhile trusts continue to multiply in all the other necessities of life. Within the week there were organized:

A Cotton Goods Trust.
An Ice Trust.
A Hide and Leather Trust.
An Asphalt Trust.

These simply supplement the hundreds of other trusts and monopolies formed during the present year, seeking to control the production and fix the prices of nearly every article of general use.

The latest combinations cover:
The food we eat.
The clothing we wear.
The shoes for our feet.
The ice required for health and comfort.

The modern pavements for our streets.

Are there no laws against these "conspiracies in restraint of trade"—these combinations of greed against need?

"Oh, yes! There is a stringent Federal anti-trust law, and most of the States, including New York and Illinois, have statutes of a similar character.

Why are not these laws enforced? It is as easy as a thimbleigger's game. The Attorney-General of the United States, the official charged (under the President) with the duty of seeing that "the laws are faithfully executed," says that the regulation of industrial combinations "is entirely a matter of state control," and that "unless the functions of interstate commerce are interfered with I would be superfluous to attempt a crusade against affairs with which I have no business."

To the lay mind of the ordinary plundered citizen it would seem that a Meat Trust organized in Chicago, and not only supplying the markets of all our Eastern cities, but actually selling meat cheaper in London than it does in New York, was engaged both in interstate and international commerce. So of the Ice Trust, reaching from Maine to New York, Philadelphia, Baltimore and Washington. So of the Hide and Leather Trust and a hundred others.

And yet, with a trust lawyer as Attorney-General and a President to whose campaign fund protected monopolies contributed a million dollars, the chance of the people to find relief in the Federal law is about equal to the chance of safety to a roost of chickens guarded by Br'er Fox and Br'er Coon.

The common-sense remedy would seem to be to elect a President and Governors who believe that monopolies should be and can be strangled, and who will see to it—"By the Eternal!"—that the laws are faithfully executed.—New York World.

Rule That Works Both Ways.

"I have frequently observed," said the vegetarian, "that when a man lives on beef he becomes something like an ox; if he eats pork the chances are he will grow swinish."

"Perhaps you are right," said the turfed alderman. "I have also observed that when a man lives on nothing but vegetables he is apt to be pretty small potatoes."—Chicago Evening News.

Modern Fable.

general who was conducting a war in a distant island wrote to the agricultural department of his government to ship him a ton of acorns. When asked what he intended to do with them he replied: "There is no shade in our trenches, and the troops suffer from heat. A growth of large oaks will add much to the comfort of the men in the firing line."

He would have more, but his attention was arrested by a burst of song from a neighboring jungle. "Ah," he sighed, "that is a round robin!"

And he walked sadly away.—San Francisco Examiner.

at her home here, after months of
suffering from heart disease. Mr.
Blackburn was notified early in
the day that her illness had taken
a sudden turn for the worse and he
wired from Washington that he and

daughter, Mrs. Hall, wife of Col.

Mrs. Blackburn had been a

for many months and had received
every attention that loving care
could bestow, but the case was
very serious from the start.
She was sixty years of age and
was married to Mr. Blackburn

GRAVE CHARGES MADE.

American Officials in Manila Are
Plundering the Govern-
ment.

Denver, Sept. 14.—Napoleon E.
Guyot, late private Company G.
First volunteers, who for three
months in 1898 served as a clerk
under Maj. Kilbourne, and later
under Lieut. Col. Potter, auditor of
public accounts at Manila, publish-
es this evening a signed statement
in which the gravest charges of cor-
ruption are made against the
American officials in Manila. He
says exorbitant prices are paid for
all kinds of supplies purchased in
Manila; that vast quantities of high
class wines and other supplies are
being purchased ostensibly for the
Spanish hospitals, while in the
American hospitals only the coarse-
st supplies are furnished.

He says court martials of private
soldiers charged with selling gov-
ernment property have been stopped
because they would result in the
exposure of the officials' rascality.
The robberies, he asserts, will ag-
gregate an enormous sum.

NOT WANTED IN CALIFORNIA.

The State May Quarantine Against
the Consumptives.

San Francisco, Sept. 15.—Calif-
ornia may establish a quarantine
against consumptives.

The State Board of Health to-day
passed the following resolution in-
troduced by Dr. D. D. Crowley:

Resolved, That the State Board
of Health considers the property of
quarantining against human be-
ings and animals with tuberculosis
entering the State.

Dr. Crowley said: "We are
morbidly afraid of diphtheria,
scarlet fever, smallpox, cholera and
yellow fever. We quarantine these
cases because they kill so quickly,
but the lingering tubercular dis-
ease that eventually kills twice as
many as all these together is per-
mitted to continue unchecked.

"Patients, I think, ought not to
attend churches or theaters or gen-
eral public or social gatherings.
Nor ought they occupy public con-
veyances without special provision
being made for them.

"I may say further," continued
Dr. Crowley, in answer to a ques-
tion, "that I do not believe that pa-
tients suffering with consumption
should be permitted to enter hotels
without the rooms being protected
by the health officers of the com-
munity, acting in accordance with
the general laws of the State. I
further believe in a state sanita-
rium. This sanitarium, should be
away from any city, from 1,000 to
2,000 feet above the sea level, where
patients could enjoy dry air and
undergo scientific treatment for
tuberculosis.

TWENTY-ONE CHILDREN.

Then Negro Couple Had Their
Marriage Legalized.

Henderson, Ky., Sept. 13.—A pla-
nation marriage of 46 years ago, the
fruit of which has been 21 children,
has just been legalized in this city.

The parties are Fielding and
Malinda Soaper, an aged and re-
spected negro couple.

They have now been married 46
years, and have had 21 children.

\$2.50 SENT FREE!

The Well Known Physician and Specialist
FRANKLIN MILES, M. D., D. L. D., of
Chicago, Will Send \$2.50 Worth of
His New and Complete Treat-
ment Free to Each of
Our Readers.

There never was a better oppor-
tunity for persons suffering from dis-
eases of the nerves, brain, heart, liver,
or stomach to test, free, a New and
complete Treatment for these dis-
orders. Dr. Miles is well known as a
leading specialist in these diseases,
and his liberal offer is certainly
worthy of serious consideration by
every afflicted reader.

This new system of Special Treat-
ment is thoroughly scientific and im-
mensely superior to the ordinary
methods. It consists of several reme-
dies carefully selected to suit each
individual case and is the final result
of twenty five years of very exten-
sive research and experience in treat-
ing this class of disorders. It con-
sists of a curative elixir, tonic tablets,
laxative pills and usually a plaster
selected for each case. Extensive
statistics clearly demonstrate that
Dr. Miles' New Treatment is three
times as successful as the usual treat-
ment.

Thousands of remarkable testi-
monials from prominent people will
be sent upon request which prove the
doctor to be one of the world's most
successful physicians.

Col. E. B. Spileman, of the 9th
United States Regulars, located at
San Diego, Cal., says: "Dr. Miles'
Special Treatment has worked won-
ders in my son's case when all else
failed. I had employed the best
medical talent and had spent \$2,000
in so doing. I believe he is a won-
derful specialist. I considered it my
duty to recommend him." "You
cured me of years of inherited head-
ache and dizziness," writes Truman
DeWesse, Editor Chicago Times-
Herald. "For years I had severe
trouble with my stomach, head,
neuralgia, singing spells, and dropsy.
Your treatment entirely cured me,"
writes Hon. W. A. Warren, of James-
town, N. Y.

As all afflicted readers may have
\$2.50 worth of treatment especially
adapted to their case, free, we would
advise them to send for it at once.

AT MACEDONIA

Will the Next County Teachers' Association Be Held.

The next meeting of the County Teachers' Association will be held at Macedonia, on Friday, Sept. 29th, 1899, at 10 o'clock, a. m. Everybody is cordially invited to attend. Let every teacher who can possibly do so be present and help to make this a profitable meeting. The following is the program: Devotional exercises.

Opening address, Miss Minnie Brasher.

Response, Miss Lillie B. Ray. How to organize a school, Misses Gertrude Keith and Lizzie Owen, and R. A. Cook.

What are the Trustees' duties in governing the school? J. G. Wright, Henry J. Miller and Mrs. Hattie Robinson.

How to teach Current History, Misses Carrie Brasher and Pearl Jenkins, and Paul Keith.

Mistakes in teaching, W. E. Gray, J. L. Manire, and Geo. P. Ciaror.

Dinner.

When should language lessons be introduced and how much time should we give them? Misses Amanda Taylor, Cecil Johnson and L. E. Price.

How can we teach children to see the beauties of nature? Mrs. Annie Wright, Misses Ellen Withers and Fairleigh Bowling.

Punishments—Nature and ends, Misses Belle Parker, Margery Berry and Ella Griffin.

Reading circle work, General discussion.

Miscellaneous business. Adjournment.

GRACEY POINTS.

Death of Mrs. Bryant—Crop Items—Flies Gone.

Gracey, Sept. 18.—Mrs. Sarah Bryant, the aged mother-in-law of Mrs. Lizzie Cullum, died Saturday at an extreme old age. She had been feeble and helpless for many years. She died from the infirmities of old age.

The dust is several inches deep in the dirt roads and rain is very badly needed.

The epidemic of stock flies is about over.

The tobacco crop is about all in the house and farmers are ready to begin cutting corn.

Col. Andrew J. Meacham returned Saturday from an extensive visit to relatives and friends at Clarksville, South Union and Bowling Green.

He says the tobacco crop in Logan and Warren counties is very inferior compared to the crop in this county.

A Spunky Preacher.

The Rev. Coleman has been getting it in the neck of late. He is reading out from Louisville cards, asking for a donation of 50 cents to defeat Goebel. A Hawesville minister received one, and pasting the Democratic ticket on one side of the card and a Goebel badge on the other, fired it back at him with the following remarks: "I enclose you a badge of honesty, instead of the corruption fund, asked for. We'll meet you at Philippi."—Hancock Clarion.

YELLOW FEVER

Raging as a Fearful Epidemic at Key West.

Doctors Too Busy to Make Detailed Reports—Not so Bad at Other Places.

Jacksonville, Fla., Sept. 17.—The fever is increasing very fast at Key West, judging from Dr. Porter's message to-night, in which this significant passage occurred: "A number of new cases; physicians not time to report." One death is reported, but no name is given.

When Dr. Porter was in charge of the epidemic here in 1887-88 he insisted upon physicians reporting all new cases daily and some doctors were threatened with arrest for not reporting promptly; hence this omission at Key West would indicate that physicians are so overcrowded with patients that they can not find time even to report new cases. This would indicate a very bad state of affairs there. Dr. Porter asked the Health Board here to ship him two barrels of brimstone at once.

No new cases are reported at New Orleans, Jackson and Mississippi coast points.

HE SOON GOT WELL.

Landing with the Bootjack on the Leader's Nose Had a Beneficial Effect.

It was a sad scene. The old man lay on his bed, and by him sat the faithful wife, holding his worn hand in hers and forcing back the tears to greet his wandering look with a smile. She spoke words of comfort and of hope. But he felt the cold hand falling upon him, and he turned his weary eyes up to her pale, wan face.

"Jennie, dear wife, I am going."

"Oh, no, John—not yet."

"Yes, dear wife," and he closed his eyes; "the end is near. The world grows dark about me. There is a mist around me gathering thicker and thicker, and there, as through a cloud, I hear the music of angels—sweet and sad."

"No, no, John, dear; that isn't angels; that's the brass band at the corner."

"What!" said the dying man. "Have those scoundrels dared to come here when they know I'm dying? Give me my bootjack. I'll let 'em see."

And in a towering rage the old man jumped from his bed, and before his wife could think he had opened the window and shield the bootjack at the band.

"I've hit that fat leader in the nose!" And he went back to bed and got well.—Tit-Bits.

LA VEGA CLEMENTS.

Makes Three Excellent Speeches in This County.

Hon. La Vega Clements, an able young lawyer of Owensboro, Ky., made three speeches in this county last week.

The first was at Crofton Thursday night. He addressed a crowd of 142 people and made a very fine speech in defense of the Democratic state ticket. It was well received and did much good.

On Friday afternoon Mr. Clements filled an appointment here, but as the primary election was in progress and few country people were in town his audience was small. His speech of an hour or more was given an attentive hearing by those present. The speaker told some good anecdotes and made a good impression both as a speaker and as an advocate of Democratic doctrine.

Friday night he closed his appointments in the county with a speech at Pembroke to a good crowd. He is in Hopkins and Webster counties this week.

PEARY MAY REACH THE POLE.

The Opinion of Herbert L. Bridgman, Who Accompanied the Expedition to the North.

New York, Sept. 15.—Herbert L. Bridgman, who commanded the Peary Arctic expedition of 1896, has arrived in Brooklyn. He thinks Peary may reach the pole and return.

Of Mr. Peary's work Mr. Bridgman said:

"Peary's results in the first year of the four allotted to his greatest arctic work fully reward expectation and justify confidence. What he has already achieved removes his undertaking from the realm of doubt to reasonably certain success. With his knowledge of all conditions bearing upon his work, there is scarcely a possibility that any danger remains for the life, health and ultimate safety of the party. The first year has been spent in securing dogs and means of transportation, in practical training, in sledging on the sea ice and in mastering the problems of travel in darkness and at the lowest known temperatures under the worst conditions."

"Peary has during the past few months by pick, ax and powder, practically opened a post road from Cape Sabine to Fort Conger."

"Peary will take the field with the first light of the new year, himself, and all his company, men and dogs, in perfect condition from the long quiet rest of the winter. His landed stores and permanent stations give him an incomparable advantage when the final test comes."

Mr. Bridgman believes that Peary will accomplish his purpose and reach the pole before his four years are up.

BRIBE SPURNED.

Plans of The Philippine Commission and Its Overtures

New York, Sept. 15.—A special to the World from Ithaca, N. Y., says: Your correspondent is able to say on authority that the Schurman peace commission offered every possible inducement short of absolute self-government to Aguinaldo and his followers. Aguinaldo was promised, as the price for the restoration of peace in the Tagalogs tribe, a bonus of more than \$5,000 a year while the Tagalogs remained peaceful, if such were needed to make his leadership of the Tagalogs thoroughly secure. With all these inducements, tempting as they must have been, Aguinaldo, as the recognized head of the insurgent movement, declined to yield. He insisted upon immediate self-government, and his insistence was so firm as to make an agreement impossible.

President Schurman was frank in telling your correspondent a day or so ago that he favored giving to the various tribes the largest pos-

sible measure of home rule at the earliest moment. He thought the several tribes could administer their local affairs, elect their municipal officers, establish courts and penal institutions, a judiciary, etc.; but he did not believe it possible to allow the natives to participate in the general government.

"How could they govern the islands in view of the heterogeneity and multiplicity of the tribes?" he asked.

TOO ZEALOUS.

Whippleton Was Getting Too Attentive to Business to Please the Boss.

"I wish," said the senior partner to the manager of the executive department, "that you would discharge Whippleton, that new man we put on a couple of months ago."

The manager was surprised. He showed it in his countenance. He was about to say something, when the head of the firm went on:

"I have made it a rule, as you have doubtless noticed, never to permit any of the men who work in this establishment to beat me here in the morning. For 20 years I have sat here at my desk, and watched the employees report for duty."

"Yes," the manager said, "it has become a tradition around the place that you are always the first one here in the morning and the last one to leave at night."

"Exactly. That's why I want you to discharge Whippleton."

The manager was about to carry out his order, but turned after he had taken two or three steps and asked:

"Have you caught Whippleton shirking? Does he get down to work late in the mornings?"

"No," the old man responded, "he's making me get up before daylight in order to keep on beating him here. I won't have it."

Mrs. PERLEY MOULTON, Theford, Vt., writes:

"DEAR MRS. PINKHAM—I think Lydia E. Pinkham's Vegetable Compound is an excellent medicine. I took several bottles of it before the birth of my baby and got along nicely. I had no after-pains and am now strong and enjoying good health. Baby is also fat and healthy."

Mrs. CHAS. GERBIG, 304 South Monroe St., Baltimore, Md., writes:

"DEAR MRS. PINKHAM—Before taking Lydia E. Pinkham's Vegetable Compound I was unable to become pregnant; but since I have used it my

troubles and asking for advice. You answered my letter promptly and I followed the directions faithfully, and derived so much benefit that I cannot praise Lydia E. Pinkham's Vegetable Compound enough. I now find myself pregnant and have begun its use again. I cannot praise it enough."

and consulted a physician, but received no benefit and could not become pregnant. I wrote to you telling you my troubles and asking for advice. You answered my letter promptly and I followed the directions faithfully, and derived so much benefit that I cannot praise Lydia E. Pinkham's Vegetable Compound enough. I now find myself pregnant and have begun its use again. I cannot praise it enough."

HOW CHICAGO ENTERTAINS

ALL THE WORLD INVITED TO HER FAIR FESTIVAL
NEXT MONTH.

The Summer Girl's Harvest.

Sweet mistress of the summertime—
Fair maid of manners airy—
Chine 'tis to rule with grace sublime
And sway of scepter'd fairy.

With Cupid's darts poor manly hearts
By thee in scores are split,
As at thy feet with love replete
Each 'gainst the other's pitted.

Frank B. Wood.

All the crowned heads of Europe and the remainder of the world will not be at the Chicago festival.

Because business and they have not been invited. When Chicago has a show she slight nobody in her invitations, and assures all a glorious time.

They will but come. Because business and they have not been invited. When Chicago has a show she slight nobody in her invitations, and assures all a glorious time.

Chicago's invitation Committee abroad. Not permit of a speedy acceptance never makes the people of the Lake city angry, they try again the next time. While neither Queen Victoria, Kaiser William or the czar of Russia will witness the gayeties of the fair festival in Chicago this year is no sign they will never come, and it is a pretty safe bet to make that if good Queen Vic. lives long enough this overgrown infant of the west will come to get along without Cervera and though the city has to build a special boat to transport her across the Atlantic.

All summer long Chicago's committee have traveled through Europe distributing handbill invitations among the palaces and throne-rooms of the old world. No one has been slightest, from Dreyfus to his highest the Turk. Even Aquinaldo could feel assured of a royal welcome, and a better dinner than New York ever promised Admiral Dewey, should he see fit to come to this annual show. Admiral Cervera was invited, and the admiral, remembering his treatment in this country at a previous time not so very long ago, seemed quite willing to come, but Spain was not willing that he should. Even when the invitation was increased so as to include the young king and his mother, with a guarantee of expenses attached, the obdurate rulers would not consent, and so Chicago's fall show will have to get along without Cervera and the Spanish royalty.

But the committee were not entirely unsuccessful, for President McKinley will be present, as will also President Diaz, of Mexico, and Premier Laurier, of Canada.

Seventeen Hundred Musicians.

When Chicago starts in to give a performance she secures the attractions and figures on the coast afterward.

When the city wants a band she gets a band, and she wants a big one—at least one that is just a little larger than any band that ever existed.

Attention elsewhere. If she plans a parade it must be a big one, and it is necessary to secure the entire army of the United States, with the volunteers and the Philippine rebels thrown in, to beat some other city, the army and the volunteers and the rebels must come, regardless of expense.

For this fall festival Chicago wants to beat the world with music. The city wants a larger number of musicians than any other city of the world ever got together before, and Chicago thinks that not less than 1,700 will answer her purpose.

Among these 1,700 musicians there will be some one to represent any old instrument that was ever played. Any man who can pound a bass drum or play

will but apply. At the present time every man who has been in the habit of keeping his neighbors awake nights by practicing on a cornet across the lake or courtyard is at it harder than ever, and, while under ordinary circumstances the neighbors might complain to the police or health departments, they now bear with him patiently for the good of the cause.

The musical programme which these 1,700 musicians will render has not yet been announced, but it is said that it will include something to please everybody, from the classical to the popular street airs of the day, and will be rendered on everything from a street organ to the grand pipe organ of the Auditorium. Chicago asks that the lovers of music attend her show, and if they are not pleased with the programme it will not be Chicago's fault.

A First-Class Performance.

The fact is, Chicago is competing with New York in this fall festival.

The Lake city will not have the honor of receiving Admiral Dewey as he steps from the deck of his flagship onto the wharf, but if possible she will make Admiral Dewey wish that he had sailed his fighting craft around through the lakes to Chicago before stopping elsewhere.

She is not promising her guests anything in the way of a hundred-dollar dinner, because hundred-dollar dinners are beneath her and but an everyday affair in Chicago. If the admiral will but change his programme and come to Chicago before stopping at New York he may have all he can eat, even though it cost a thousand, for Chicago never counts the cost. To her thousands of invited guests she has promised a larger plate of pork and beans for ten cents than can be bought anywhere else on the continent for the same money, and she will permit.

In fact, the visitor will be welcomed to all that Chicago has to offer, and Chicago has much.

WRIGHT A. PATTERSON.

A Fashionable Novelty.

It can be said with perfect safety that the collarette in its numerous different forms has come to stay. There was some doubt as to whether it would take well at first, especially in high-grade goods, but it is now a well-known fact, and they will be largely used this fall and no doubt continue right through winter—Dr. Grog's Economy.

Seal Oil Ice Cream.

A favorite dish with the people is an ice cream made of seal oil, into which snow is stirred until the desired consistency has been obtained; then frozen berries of different kinds are added, with a little of the fish egg for

Men who go out fishing in an open boat in the midst of a blinding storm and enjoy it, must be strong and healthy and are pretty sure to live to a ripe old age. Unfortunately, the rush and hurry of modern business life will not permit the average man to take frequent outdoor exercise.

In lieu of a life spent partly in the woods and on the water, a man must find some kind of medicine to tone up and invigorate him and incite the vital organs of his body to the faithful performance of their normal functions.

Dr. Pierce's Golden Medical Discovery is the only thoroughly effective medicine for this purpose.

Its principal action is upon the organs that feed the blood, the stomach, the large intestine and the liver. It facilitates the flow of the digestive juices in the stomach and the production of healthy chyle in large quantities in the large intestine. It invigorates the liver and purifies and enriches the blood.

When the blood is rich and pure the old, inert tissues throughout the body are torn down and replaced by new and healthy flesh tissues and nerve fibers. If a man's blood is filled with the rich pure elements of health, he can get along with a scanty amount of exercise. Disease germs can gain no foothold in his system.

"I had catarrh for several years and then the grip and also had a hemorrhage from the rectum. Dr. T. J. Brown, of Kansas, Waialua Co., N. C., had the best medical attention I could bring only partial relief. I had more hemorrhages. I took twenty-five or thirty bottles of medicine, but continued to have spells of bleeding. I commenced taking Dr. Pierce's Golden Medical Discovery and Dr. Sagar's Catarrh Remedy. I used eight bottles of each and was able to do any kind of labor for more than twelve months. I owe my life to Dr. Pierce's medicine."

Elephants Plan Murder.

Tuskers Exhibit Great Mental Power in Their Revenge.

Few more impressive confidences can be imparted than one in which a Hindoo describes how he knows his elephant intends to destroy him. It is all so seemingly trivial, and yet in reality of such deadly significance. His story is so full of details that prove the man's profound understanding of what he is talking about that one remains equally amazed at the brute's power to disseminate and its intended victim's insight into the would-be murderer's character. And yet, from the psychological standpoint, an elephant never gives any other such indication of mental power as is exhibited in its revenge. That patient, watchful, implacable hatred, often provoked simply because a man is in attendance upon another animal (for it is the rule with tuskers to detain their next neighbors), speaks more conclusively of a high intellectual guide than all stories, true or false, that have been told of their ability. Such concentration and fixeness of purpose; such careful, unrelaxed vigilance; such perfect and consistent pretense, and, when the time comes, such desperate, unhesitating energy as homicidal animals exhibit, are more impressive without an irregular development.

No one can deny that if this creature is great at all its greatness shows itself in its crimes. These have caused it to be worshipped in the east, where men venerate nothing but mercies, irresponsible force, and where an exhibition of those qualities and traits described fully accounts for the formula: "My lord, the elephant."

TUNNEL VENTILATION.

A New Plan Adopted with Success in Switzerland.

Various devices have been used in Europe for the ventilation of tunnels.

In some cases, oil-burning or electric locomotives have been substituted for the trip through the tunnel, and in other cases artificial ventilation has been used.

In the St. Gotthard tunnel, in Switzerland, an increasing number of trains has resulted in materially altering the conditions which existed when the tunnel was first built. Finally, the plan of M. Saccardo was adopted. This consists in forcing a volume of air at high speed into an annular chamber which encircles the whole circumference of the tunnel at one end. From this chamber the air escapes on the inside face of the tunnel, and it is either drawn out or forced in so as to produce an artificial current. The plant is installed at Goeschenen, at the northern end of the tunnel, and will act for the most part to push the air out from north to south in the ordinary direction of the natural draft. The ventilating machinery consists of two blowers revolving at a rate of 70 revolutions per minute. With their aid a current with a velocity of 2.8 meters per second is produced. Travelers upon this beautiful and well-managed road will appreciate the change—Scientific American.

THE

NEW YORK WORLD,

THIRICE-A-WEEK EDITION.

PRACTICALLY A DAILY AT THE

PRICE OF A WEEKLY

The striking and important events

of the last year have established the

overwhelming value of THE TRICE-A-WEEK

World to every reader. For a

week almost nominal sum it has kept its

subscribers informed of the progress of

all our wars and, moreover, has reported them as promptly and fully as

if it were a daily. With our interests

still extending throughout the world, with our troops operating in the

Philippines, and the great Presidential campaign, too, at hand, its value is further increased.

The motto of THE TRICE-A-WEEK

World is improvement. It strives

each year to be better than it was the

year before, and the public confidence in it is shown by the fact that it

now circulates more than twice as many papers every week as it did

one year ago, not a daily, published in America.

We offer this unequalled newspaper

and the KENTUCKIAN together each

year for \$22.00. The regular subscription price of

the two papers is \$30.00.

TWENTY-ONE YEARS EACH.

Three Colored Convicts Taken To The Pen Saturday.

The Sheriff of Logan county passed through here Saturday, enroute to Eddsville, having in charge Pete Haddox, Henry Penick and John Allen; the three negroes tried at Bowling Green on a charge of venue from Logan county for the murder of Sam Gordon.

They will each serve 21 years in the penitentiary.

A Worthy Cause.

Rev. J. P. Thomas, col., of Chicago, will deliver an address to the Virginia street Baptist church on Thursday eve, Sept. 21. Subject: "Relationship that the negro sustains to the Government." Proceeds for the benefit of Hopkinsville T. & F. college. A small admission will be charged.

REPUBLICAN DAY.

To-morrow The Great Republican Leaders Are Due.

The Candidate For Governor, Senator Deboe and U. S. Marshal James to Speak.

The Republicans will have their first grand rallies in Christian county at the Court House to-night and to-morrow.

The orators for to-night are Dr. E. E. Underwood and W. D. Johnson, colored speakers, who are stumping the state.

To-morrow the orators will be the head men in the party, Attorney General Taylor, Senator Deboe and Dr. A. D. James.

They will speak at 1 o'clock and every effort is being made to have a big crowd on hand. In 1896 the Republican vote in the county was more than 4500 and if one-half of these voters are on hand the crowd may be expected to reach 2000 or 3000. As the Court House seats only about 600, it may be necessary to have an open air meeting.
